

# STELLA'S SPECTACULAR PAPER SNOWFLAKE TUTORIAL

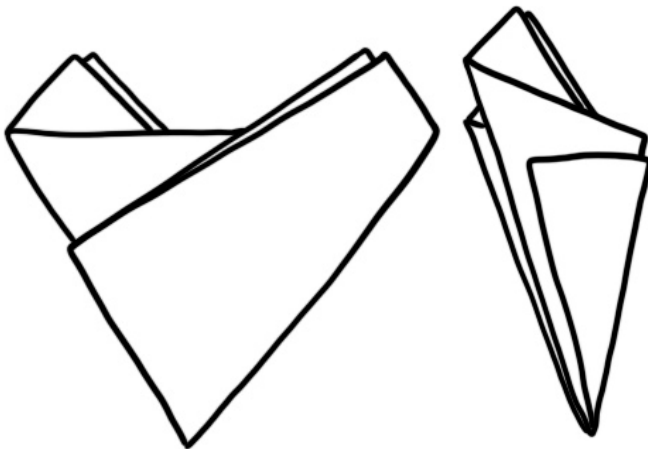

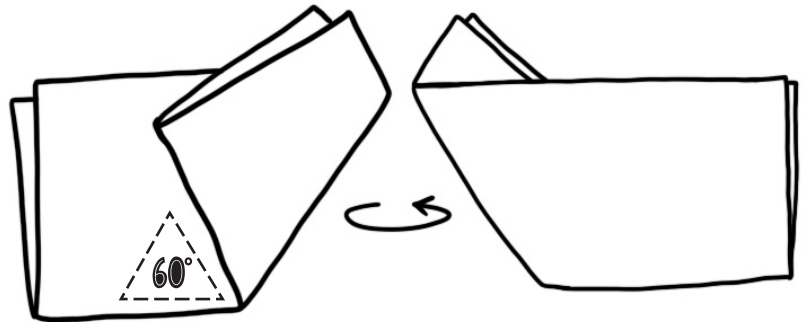

1

Start by folding a regular piece of paper in half "hamburger style."  
Make sure the edges line up!

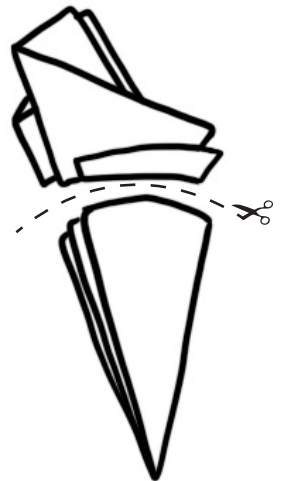

2

Next, make a 60 degree fold at the center like so. Use the triangle at the top corner of this page to check your angles.

3

Then flip it over, make the same fold on the other side, and fold the whole thing in half. Trim off the excess paper at a slight curve.

4

Now's the time to get creative! Try shaping the top to get a unique edge, or cut some off the bottom for a hole in the middle. Unfold carefully and enjoy!
